

## OFT10-600A Installation of oil fuel storage and supply systems Connected to fixed combustion appliances Course Information Sheet 026

### Introduction

This course is for technicians who wish to install oil tanks and associated pipework and equipment. It is aimed at Category 1 applicants renewing their OFT10-600A qualification, and Category 2 applicants completing this assessment for the first time (sufficient on-job experience is essential).

### About the course

The OFT10-600A assessment is designed for technicians who wish to install oil tanks and associated pipework and equipment. The course covers:

- OFTEC registration and health and safety
- Regional legislation and requirements
- Oil storage and supply
- Heating systems
- Fire valve installation
- Safe electrical isolation
- Energy efficiency

### Where is the course run?

At our Training Centres in Burgess Hill, West Sussex and Portchester, near Portsmouth.

### What qualifications do I need to have to do this course?

You can be either a Category 1 Applicant looking to renew your OFT10-600A qualification, or a Category 2 Applicant. If you are Category 2 completing this all theory assessment for the first time, you should complete our brief self-declaration form. Contact one of our sales consultants on 01444 870860 or 02392 190190 for further advice

### About the assessment

To pass this course, it is necessary to successfully complete a number of written assessments and a short practical assessment – including safe electrical isolation, selection of fire valves and pressure testing of pipework. These take place in the afternoon after the revision course or the following day.

Once we have internally verified your paperwork (we have 10 working days after you have completed your Assessment in which to do this, providing we have all your relevant paperwork) we send it off to our Certification Body to be processed and uploaded to OFTEC. This can take up to six weeks. When this process is complete, you will receive a certificate and card directly from our Certification Body.

Successful completion of this Assessment does not automatically result in OFTEC registration – a separate application must be made directly to OFTEC.

### How long will it take?

The course takes one day – half a day revision plus a half day assessment.

<b>What does it cost?</b>
For current prices speak to one of our sales consultants on 01444 870860 or 02392 190190. The total price includes OFTEC technical information books 1 and 3, revision, assessment, certification and examination fees.
<b>Preparation for the course</b>
After you have confirmed your place, we will send you a booking confirmation, timetable, and invoice.
<b>What will I need?</b>
You should bring the following with you to your course: <ul style="list-style-type: none"><li>• Pen, paper and non-programmable scientific calculator</li><li>• Photo I.D. such as passport, driving licence, company I.D. card or OFTEC card (you will not be allowed to sit the on-line examination without this)</li></ul> We will verify your identity and take your photo on arrival.  Books will be issued on day one of the course.
<b>How do I book?</b>
Call the office on 01444 870860 or 02392 190190 and speak to one of our sales consultants. They will discuss dates and availability and can take payment by debit or credit card to confirm your place.
