

City & Guilds (2382 -18) Certificate in the Requirements for Electrical Installations 18th Edition – 3 day course Course Information Sheet 030

Introduction

This 2382 18th Edition full course is aimed at practising electricians with relevant experience and is intended to ensure that they comply with the format, content and applications of the requirements for Electrical Installations BS7671:2018 The Requirements for Electrical Installations. (July 2018).

The 18th Edition is a fully new edition of the regulations with more substantial changes than in the 3 Amendments issued to the 17th Edition. There is therefore only one full sixty question exam paper for all candidates, whether or not they already hold the latest 17th Edition qualification.

About the course

The Course covers topics such as protection for safety, selection and erection of equipment and inspection and testing to meet the standards of the IET Wiring Regulations.

Completion of this qualification provides evidence that you are working to the latest wiring regulations.

Successful learners could progress to our qualifications in Inspection, Testing and Certification of Electrical Installations (2391) or in Design, Erection and Verification of Electrical Installations (2396).

Where is the course run?

At our Training Centres in Burgess Hill, West Sussex and Portchester, near Portsmouth.

What qualifications do I need to have to do this course?

This course is designed for qualified electricians who do not hold an 18th Edition qualification.

About the assessment

There is a 60 question, multiple choice, 2 hour online Evolve exam on the fourth day.

We can arrange practice examinations for customers who are not familiar with the use of personal computers

How long will it take?

The 2382-15 18th Edition Full course is available as a three day revision course with exam on a fourth day.

Candidates who already hold the latest 2382-15 17th Edition including Amendment 3 qualification may wish to take a shorter 1 day revision course (see Course Information Sheet CIS 031) covering the differences between the new 18th Edition and old 17th Edition. All candidates on either course must sit the same 60 question multiple choice exam paper.

What does it cost?

For current prices speak to one of our sales consultants – call 01444 870860 or 02392 190190. The price will include all revision, assessment and certification fees.

Preparation for the course

You should familiarise yourself with the 18th Edition Wiring Regulations (BS 7671:2018). You must ensure that you have the latest version – details can be found on the IET website <http://electrical.theiet.org/wiring-regulations/index.cfm>

Books are available to buy from the IET, from electrical suppliers such as City Electrical Factors and Medlocks Electrical, from bookshops or from on-line retailers such as Amazon.

What will I need?

You should bring the following with you to your course:

- Pen, paper and non-programmable scientific calculator
- Photo I.D. such as passport, driving licence or company I.D. card (you will not be allowed to sit the on-line examination without this)
- Your own copy of the required book:
18th Edition Wiring Regulations (BS 7671:2018)
Optional book (not compulsory):
On-site Guide (BS 7671 Wiring Regulations)

How do I book?

Call the office on 01444 870860 or 02392 190190 and speak to one of our consultants.

They will discuss dates and availability with you and can take payment by debit or credit card to confirm your place.
